PARTNERSHIP AGAINST D.O.T. DISCRIMINATION

*"Because, this history cannot be allowed to repeat itself!"*

## PAST:

*When Interstates 4 and 275 were built...*

*...African American neighborhoods in East Tampa, West Tampa, Ybor City and Central Avenue, were sacrificed.*

## PRESENT:

*Florida Department of Transportation TBX project will expand I-4 and I-275 by up to 18 lanes through parts of the African American community.*

## FUTURE:

*TBX will, again, cause discriminatory effects on African American communities:*

- *Displaced citizens and families*
- *Destroyed houses*
- *Destroyed businesses*
- *Increased air pollution*
- *Higher temperatures*
- *Poor stormwater run-off*

Quotes by U.S. Secretary of Transportation Anthony Foxx:

*"We now know - overwhelmingly - that our urban freeways were almost always routed through low-income and minority neighborhoods, creating disconnections from opportunity that exist to this day."*

*"It became clear to me only later on that those freeways were there to carry people through my neighborhood, but never to my neighborhood."*
